Effect of MAPE on the Mechanical Properties of Rubber Wood Fiber/Thermoplastic Natural Rubber Composites 18
J. K. Sameni, S. H. Ahmad, and S. Zakaria

Semi-Interpenetrating Polymer Networks Based on Polyurethane Ionomer/Poly(vinyl chloride) 24
S. N. Jaisankar, Y. Lakshminarayana, and Ganga Radhakrishnan

Low Density Polyethylene/Starch Blend Films for Food Packaging Applications 32
Baldev Raj, Udaya Sankar K., and Siddaramaiah

Studies on Swelling Properties of Wood/Polymer Composites Based on Agro-Waste and Novolac 46
S. Mishra, J. B. Naik, and Y. P. Patil

Hardness and Microstructure of Carbon Pellets from Self-Adhesive Pyropolymer Prepared from Acid and Alkaline-Treated Oil Palm Bunch 51
M. Deraman, R. Omar, S. Zakaria, M. Talib, I. R. Mustapa, A. Azmi, and A. A. Aziz

Thermo-Oxidative Degradation Studies of Ternary Blends of Polyethylenes 59
Deepak Srivastava, Pramod Kumar, and G. N. Mathur

Vinyl Ester-Based Three-Component IPNs for Glass Fibre Reinforced Composite Applications 71
Jayant S. Parmar, Girish R. Patel, and Alpesh K. Patel

Polyimides Based on Poly(2-furanmethanol-formaldehyde) 76
Kaushik S. Patel, Kishor R. Desai, Kishor H. Chikhalia, and Hasmukh S. Patel

DEPARTMENTS

News from the Polymer Processing Institute 81

Number 2, Summer 2004

FEATURES

Evaluation of Performance of Polyurethanes Based on Hydroxy Alkylated Cardanol Formaldehyde Resins Under Aging Conditions 91
K. Sathiyalekshmi and S. Gopalakrishnan

Free Radical Graft Copolymerization of Poly(*n*-butyl methacrylate) and Poly(butyl acrylate) onto Chlorinated Rubber: Characterization and Mechanical Properties 103
Shanaz Ahmed, N. Radhakrishnan, K. S. V. Srinivasan, and R. Sanjeevi

A Comprehensive 3-D Analysis of Polymer Melt Flow in Slit Extrusion Dies 111
Yihan Huang, C. Richard Gentle, and J. Barry Hull

Compatibilization of Water Borne Poly(ethylene oxide)-Silica Hybrids 125
Ishak Manaf and Leno Mascia

Electrical Conductivity of Carbon Filled Nylon 6,6 135
Jessica A. Heiser, Julia A. King, Jeremiah P. Konell, and Lawrence L. Sutter

REVIEW

Recycling Rice Hull Ash: A Filler Material for Polymeric Composites? 147
Deeptangshu S. Chaudhary, Margaret C. Jollands, and Ferenc Cser

DEPARTMENTS

News from the Polymer Processing Institute 156

Number 3, Fall 2004

FEATURES

Tuning and Control of Dimensional Consistency in Molded Products 163
David Kazmer, Cybele Lotti, Rosario E. S. Bretas, and Liang Zhu

Online Temperature Measurement and Simultaneous Diameter Estimation of Fibers by Thermography of the Spinline in the Melt Spinning Process 176
M. Golzar, R. Beyreuther, H. Brünig, B. Tändler, and R. Vogel

High Temperature Copolymerization of Styrene/Ethyl Acrylate: Reactivity Ratio Estimation in Bulk and Solution 186
Nahla Sahloul and Alexander Penlidis

A Study of Grafting Reactions During Processing of Polyolefins 196
A. V. Machado, J. A. Covas, and M. van Duin

Submicron Structured Polymethyl Methacrylate/Acrylonitrile–Butadiene Rubber Blends Obtained via Gamma Radiation Induced "In Situ" Polymerization 211
G. Spadaro, C. Dispenza, P. T. Mc Grail, A. Valenza, and D. Cangialosi

Temperature Dependence of Electrical Conductivity in Poly(maleic anhydride-*alt*-acrylic acid) and Its Transition Metal Complexes 222
Serap Kavlak, Alp Osman Kodolbaş, Hatice Kaplan Can, Ali Güner, and Zakir M. O. Rzaev

Effect of Calcite and Calcite/Zeolite Hybrid Fillers on LLDPE and PP Composites 230
Patit P. Kundu, Jagnnath Biswas, Hyun Kim, Sang Eun Shim, Soonja Choe, and Dai Soo Lee

Reactive Extrusion of Poly(urethane-isocyanurate) 239
M. A. Semsarzadeh, A. H. Navarchian, and J. Morshedian

DEPARTMENTS

News from the Polymer Processing Institute 256

Number 4, Winter 2004

FEATURES

Development of an Extrusion System for Producing Fine-Celled HDPE/Wood-Fiber Composite Foams Using CO_2 as a Blowing Agent 263
H. Zhang, G. M. Rizvi, and C. B. Park

Physical Characterization of Starch Extrudates as a Function of Melting Transitions and Extrusion Conditions 277
Stéphanie Blanche and Xiuzhi Sun

Poly(*O*-anisidine) Coatings Electrodeposited onto AL-2024: Synthesis, Characterization, and Corrosion Protection Evaluation 291
Kunal Shah and Jude Iroh

Comparison of Epoxy Resins for Applications in Light-Emitting Diodes 298
Jan-Chan Huang, Ying-Po Chu, Ming Wei, and Rudolph D. Deanin

Dynamic Mechanical Properties and Morphology of Polyethylene/Ethylene Vinyl Acetate Copolymer Blends 307
H. A. Khonakdar, U. Wagenknecht, S. H. Jafari, R. Hässler, and H. Eslami

On-Line Measurement of the PVT Properties of Polymer Melts Using a Gear Pump 316
Chul B. Park, Simon S. Park, Dmitry Ladin, and Hani E. Naguib
